

The Department of Mathematics at the University of Würzburg invites to a summer school with focus on modern aspects of number theory.

## Modular Forms

Kathrin Bringmann  
Universität zu Köln

## Expansions of Algebraic Numbers

Yann Bugeaud  
Université de Strasbourg

Jürgen Sander  
Universität Hildesheim

## Arithmetical Topics in Algebraic Graph Theory

Titus Hilberdink  
University of Reading

## Multiplicative Toeplitz Matrices and the Riemann Zeta Function

The Summer School is addressed to Master and PhD-Students and all those interested in these four faces of Number Theory. Deadline for application will be May 1, 2012. For registration and further information including scholarships please visit our webpage [www.mathematik.uni-wuerzburg.de/sommerschule](http://www.mathematik.uni-wuerzburg.de/sommerschule)
